

### Table of Injector Jet Sizes for Hana Type H2001 LPG Rails

The following tables show the maximum BHP capacity for a given rail pressure when running at full load and max.power revs.

<b>(when used with 0.8 bar rail pressure)</b>				
Jet Size	BHP per Cylinder	4-cyl BHP	6-cyl BHP	8-cyl BHP
no jet	33	132	198	264
B	30	120	180	240
C	20	80	120	160
D	15	60	90	120

<b>(when used with 1.0 bar rail pressure)</b>				
Jet Size	BHP per Cylinder	4-cyl BHP	6-cyl BHP	8-cyl BHP
no jet	42	168	252	336
B	38	152	228	304
C	25	100	150	200
D	19	76	114	152

<b>(when used with 1.2 bar rail pressure)</b>				
Jet Size	BHP per Cylinder	4-cyl BHP	6-cyl BHP	8-cyl BHP
no jet	50	200	300	400
B	45	180	270	360
C	30	120	180	240
D	24	96	144	192
